

VIMEK 610 BIOCOMBI

POWERED BY CAT® AND BOSCH REXROTH

VIMEK®

VIMEK 610 BIOCOMBI: is the most effective machine for thinning, felling and transport of bioenergy. Now with increased loading capacity to 5000 kg, a new and powerful engine with 60 HP from CAT and modern hydrostatic transmission from Bosch Rexroth. The increased working hydraulics gives improved and precise crane movement. Vimek brake link efficiency has also been increased. In this Vimek 610 we have been able to combine an engine and transmission to offer high efficiency, productivity, performance, all together with low fuel consumption makes a cost effective machine. Vimek 610 BioCombi is now equipped with mini joysticks as standard and our felling grapple saw has accumulation arms also as standard
